DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

- A. Species of Figure 9
- B. Species of Figure 11
- C. Species of Figure 13
- D. Species of Figure 16
- E. Species of Figure 19
- F. Species of Figure 21
- G. Species of Figure 22
- H. Species of Figure 24
- I. Species of Figure 26
- J. Species of Figure 28
- K. Species of Figure 32
- L. Species of Figure 36
- M. Species of Figure 39
- N. Species of Figure 42
- O. Species of Figure 43
- P. Species of Figure 44
- Q. Species of Figure 45

- R. Species of Figure 46
- S. Species of Figure 47
- T. Species of Figure 49
- U. Species of Figure 50
- V. Species of Figure 51
- Y. Species of Figure 52
- W. Species of Figure 53
- X. Species of Figure 54
- Z(1). Species of Figure 62
- Z(2). Species of Figure 65
- Z(3). Species of Figure 74
- Z(4). Species of Figure 78
- Z(5). Species of Figure 80.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there is no generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
